

DAIRY SHELF series offers maximum merchandising strength

Our super heavy-duty shelf offers extra understructure to provide added support in commercial refrigeration needs. This shelf is typically used in gravity-feed systems.

Our shelves are epoxy coated with a durable triple-coat NSF approved powder. Shelves are available in a variety of sizes in both white and black finishes with a load rating of 350 lbs.

Accessories enable customization to satisfy product storage and merchandising needs. Image above is shown with land dividers.

Why Choose Nashville Wire?

Global brand development companies partner with Nashville Wire Products for our consistent, premium quality fabrication. We provide the highest quality component parts to our customers who, in turn, provide high quality appliances to their customers. As an integral part of the commercial and domestic appliance supply chain, our products can be found in millions of homes, restaurants and retail stores throughout the country.

We use state-of-the-art technology to build complex, custom, wire shelves and racks that optimize space management and improve functionality of products which we encounter every day. We engineer new solutions that provide durability, strength, performance and perfection.
