

TELESCOPING SHELF

offers merchandising flexibility

Our most versatile shelf offers the ultimate in flexibility by extending and contracting to fit into various sized commercial refrigerated spaces.

Typically used in the bottom of refrigerated merchandisers this shelf provides a solid foundation for stocking needs.

Available in white, black, and stainless steel in variety of styles and sizes to fit individual needs. We can create any size from your specs.

Why Choose Nashville Wire?

Global brand development companies partner with Nashville Wire Products for our consistent, premium quality fabrication. We provide the highest quality component parts to our customers who, in turn, provide high quality appliances to their customers. As an integral part of the commercial and domestic appliance supply chain, our products can be found in millions of homes, restaurants and retail stores throughout the country.

We use state-of-the-art technology to build complex, custom, wire shelves and racks that optimize space management and improve functionality of products which we encounter every day. We engineer new solutions that provide durability, strength, performance and perfection.
