Pallet Stops Key Features:

- **Unmatched Safety:** Ensure precise flue space alignment and compliance with fire safety codes, reducing the risk of accidents caused by pallet displacement.
- **Reliable Construction:** Manufactured with high-grade materials and finished with a durable gray powder coat for long-lasting use in demanding environments.
- **Ease of Integration:** Compatible with most pallet rack systems, our pallet stops fit seamlessly without compromising efficiency.
- **Universal Design:** Designed for 2.75" deep beams with a built-in 3" offset to fit most applications.
- **Easy Installation:** Includes a sturdy allen head tek-screw for secure, hassle-free mounting.
