

CABLE TRAYS for communications and electric power

Our superior-quality wire trays, integrated shelving and custom components are designed to optimize space while providing pathways for moving data or power simply and safely.

Our cable tray system is precision engineered to support both light and heavy loads and offers more flexibility than traditional conduit systems. We strive to improve the management of cabling in today's evolving data centers.

Cable Management Offerings:

- Cable trays
- Integrated shelving
- Custom wire components
- Brackets and supports
