

DOUBLE FLANGED

HAT STYLE

PALLET SUPPORTS

Built for strength. Engineered for safety.

Our Pallet Supports provide a simplified, wireless solution that drop in to support pallets. We offer both double flanged and hat style supports in three common depths.

Get the most out of your racks by adding pallet supports to elevate and organize material with ease.

Why Choose Nashville Wire?

We are the industry leading producer of the highest quality wire decking and storage solutions used across a diverse range of warehouses and distribution centers nationally.

Thousands of fulfillment facilities across North America touch millions of products every day. With our help they optimize their operations, resulting in reduced costs to retailers and, in turn, consumers.

At our state-of-the art production facilities located across North America, we build the highest quality solutions that deliver improved labor efficiency, optimized space utilization, safety, and durability in every client program.

- **Hat style** pallet supports provide a solution to bolster the capacity and better distribute loads when used in conjunction with wire decks. This style fits inside the step beam.
- **Double flanged** pallet supports can be used as an alternative to wire decks. This style goes over the top of the step beam for a secure fit.
