

ROLLER RACKS optimize product presentation

Our durable roller racks sit easily on the existing shelves in your refrigerator and cooler environments. Easy glide roller action moves products to the front of the shelf, guaranteeing front-facing, product visibility.

The rollers ensure a consistent in-stock appearance and reduces manual labor needed to front products. They also assist with inventory management - making first in, first out.

Adjustable product dividers further control product alignment. Our roller racks are ideal for convenience stores, supermarkets, and pharmacy shelves.

Why Choose Nashville Wire?

Global brand development companies partner with Nashville Wire Products for our consistent, premium quality fabrication. We provide the highest quality component parts to our customers who, in turn, provide high quality appliances to their customers. As an integral part of the commercial and domestic appliance supply chain, our products can be found in millions of homes, restaurants and retail stores throughout the country.

We use state-of-the-art technology to build complex, custom, wire shelves and racks that optimize space management and improve functionality of products which we encounter every day. We engineer new solutions that provide durability, strength, performance and perfection.
